# Move it to the Cloud!

Share processes and data securely, ensuring access is granted only on a need-to-know basis. This approach eliminates the need for reconciliation by combining a permissioned framework.

Access. Security. Customer Service

## Why move to the cloud?

### Access

Access your favorite accounting software such as Quickbooks from any device anywhere.

### Security

Securely and safely access your data since it will be hosted on multiple endpoints across the United States

### Security
