

# WHAT HAPPENS WHEN SUCCESS AND TRUST COME TOGETHER: PARTNERSHIP.

## Our Story

### YOUR ADVERTISING IN THE BEST HANDS

A good appearance starts with your outward appearance. Show your customer the right way to you. We offer professional and individual complete solutions for all aspects of advertising technology. Since 2009.

# VALENTIN CEO | PROJECT MANAGER

#### Understanding and self-image.

Both aspects are essential for successful cooperation:

understanding the requirements of the customer, the market, technical developments and new trends in advertising, marketing and communication.

Equally important is the self-image as a performance, solution and service-oriented company that is always up to date.

In this context, Druckcenter Uri sees itself as a partner to its customers, as a project manager who thinks along and thinks ahead. We are as professional as we are friendly and accompany our customers from the idea and conception through to implementation and assembly. We offer not only support, but also comprehensive advice and care.
